

## Make meetings more meaningful

The Meeting Room fosters a more connected experience that inspires a better way to work, together. Thoughtfully designed to create more meaningful one-on-ones and small team collaborative work, without the hassle of traditional construction.

From sustainable soundproof walls to the added option of a built-in monitor and 180-degree camera for video-conferencing, the Meeting Room is the missing link to a more productive work environment.

Wooden frame houses built-in monitor and camera for seamless video conferencing.
- 10 Accessory Rail**  
Custom rail makes room for accessories like hooks and shelves, for a clutter-free work session.
- 11 Skylights**  
More natural light means more room to free your mind and think big.
- 12 Central Roof Panel**  
An electrified wooden panel houses the fans and lighting.
- 13 Plug**  
Located in the back, a standard 120-240V plug with a 3m long power cord gives you freedom to make room where you need it most, no hardwiring required.

Built-in Hardware

Available in the Pro model, the Jabra PanaCast 180-degree camera shows everyone in the room, not just the person in front of the screen, for seamless collaboration.

The PanaCast works with all leading video and audio conferencing solutions, including Microsoft Teams & Zoom, so your team can connect confidently, regardless of their choice of equipment.

Booking System Compatible

Seamlessly integrate any booking system currently used by your team to view and manage meeting room usage.

Booking system bracket available as an add-on in Standard & Pro models (\$100/unit). Free assembly if purchased with the unit at time of order. Tablet not included.
