Inspiring a better
way to work

We're here to make room for people.

We know people are the most important asset in any organization, so we put them first. Our simple and inspired modular architectural solutions allow teams to create and recreate their work environment with ease through purpose-built rooms.

The result—an agile, more productive, and happier work environment for all, and a dynamic, ever-changing workspace that alleviates the reliance on fixed construction and fixed ideas.

Room for focus

Phone Booth

A personal space for solo phone calls, virtual meetings and focused work.

Focus Room

A private workspace to call your own, optimized for focus.

Room for collaboration

Meeting Room

A thoughtful space for one-on-one conversations and small group discussions.

Open Meeting Room

A social space for open conversations and new ideas.

Phone Booth

Constant noise and insufficient meeting space lead to lost productivity, creativity, and job satisfaction, as well as higher stress levels.

By creating space for solo phone calls, virtual meetings and focused work, our Phone Booth ensures you never have to fight over conference rooms or take calls in the hallway again. The result: a happier, healthier, and more productive workforce.

Focus Room

Privacy meets productivity with the Focus Room, a thoughtfully designed personal office that allows you to concentrate on the task at hand. With over 70% of employees plagued by noise and distraction in the modern office, silence never sounded so good.

Complete with a large desk, ample storage and overhead skylight, with seamless assembly on-site, the Focus Room makes it easy to step in, get settled, and get focused on your next big idea.

Certification

Focus Room is currently being evaluated for all applicable CE directives.

Meeting Room

The Meeting Room fosters a more connected experience that inspires a better way to work, together. Thoughtfully designed to create more meaningful one-on-ones and small team collaborative work, without the hassle of traditional construction.

From sustainable soundproof walls to the added option of a built-in monitor and 180-degree camera for video-conferencing, the Meeting Room is the missing link to a more productive work environment.
